

Aldo Leopold Benches By the Suamico United Methodist Church Youth Group

For Sale

This summer the youth from the Suamico Methodist Church are going on a mission trip to Traverse City, Michigan. They will be working on various projects with the United Way, Commission on Aging and the Indian Mission.

To help pay for their expenses, the youth are constructing Aldo Leopold benches and selling them at a great price. These comfortable rustic wood benches were designed and made popular by noted Wisconsin conservationist Aldo Leopold. The benches are made from either treated or untreated pine and are 43" (width) x 29" (height).
