

“Behold, I am making all things new.” -Rev. 21:5

---

The 2016 Wisconsin Annual Conference voted this past summer to plan and implement a Conference-wide Pre-Capital Campaign Feasibility Study to determine how to best move forward to fund future ministries in our Conference.

Preparations have been completed; and we are now embarking on the public phase of our Feasibility Study entitled *Make A-New Wisconsin*. Open Information Forums will be held in all Districts around the state from late January through the month of February. Individual interviews will also be a component of this phase.

The purpose of the Open Information Forums is to present the proposed *Case for Support* statement and initial plans for a potential financial campaign...and receive your feedback. Your input and ideas are needed as we consider the best way to provide essential financial support to fund the initiatives that God is calling us to live out.

Every member and friend of this Conference are invited and encouraged to attend one of the Open Information Forums. Forums are scheduled to last about an hour. A schedule of locations and times is attached or listed on the reverse side. Thank you, in advance, for your interest and willingness to participate.

### **You Can Make A Difference!**

In respect for the congregations hosting the forums, please email your name, which forum you plan to attend, and the number of attendees to [dlund@jamescompany.com](mailto:dlund@jamescompany.com).

If you would like to read the Case for Support, and complete an online survey, go to the Conference website (<http://www.wisconsinumc.org/>) and click on *Make A-New Wisconsin*.

Most of all, keep our Conference in your prayers during this time of discernment.
