

Training Schedule (updated on September 1, 2018)

You should provide an open Safe Sanctuaries training on an annual basis. Staff and volunteers who work directly with vulnerable persons should have updated training as outlined in your policy – usually every 1-2 years. Feel free to invite all members of the congregation to attend as well. Keep documentation of who attended the training.

If you are sufficiently trained and knowledgeable about these practices, you may provide the training for your congregation. You may also call the Conference Office to work with staff to bring a training to your congregation/circuit/district. We are hoping to unveil live online trainings in 2019. A schedule for trainings will be posted on this website when it is available.
